WORK EXPERIENCE

Frontend Developer (Contract)

Quantaflix — T.R.A.V.E.L ERP

Oct 2025 – May 2026 · Contract

Built the React frontend for Quantaflix's flagship Travel ERP platform, a system digitizing the travel industry. Collaborated with the team across the full development cycle, delivering core modules through to project completion.

Web Development Intern

Frontend Internship

Aug – Sep 2025

Built and shipped multiple frontend applications during the internship — a weather app, an e-commerce store, and a to-do list app — strengthening hands-on skills in modern web development.

WEB PROJECTS

Luminum Labs

luminumlabs.com

Next.js · React · Tailwind CSS · Vercel

Led development of a modern, animation-rich production website — building nearly the entire site solo, from layout and components to deployment.

Lead · 90%

Quantaflix

quantaflix.com

Next.js · React

Contributed to the frontend development of a live Next.js agency website, working on components and UI within the team.

Contributor

SOFTWARE PROJECTS

Skin Cancer Detection App

Python · Machine Learning · AI

ML-powered app that detects skin cancer from images and returns AI-generated feedback.

Hospital Management System

Java · MySQL

System for managing patients, medical records, and billing operations.

Aqua Flow & Round Robin Scheduler

Java · OOP · Algorithms

Water usage management system, plus an enhanced Round Robin CPU scheduler with improved efficiency.
